2-IN-1 WC PAN  
CONNECTOR & AIR  
ADMITANCE VALVE

**PAN CONNECTOR  
AIRCONNECT**

# AIRCONNECT

THE **2-IN-1** WC PAN CONNECTOR  
THAT DRAINS AND **VENTILATES** PIPES!

Inventor of the flexible toilet pipe, which revolutionized the installation of WC pans during renovations, **WIRQUIN** is now launching a **new generation of WC pan connectors**.

**AIRCONNECT** is the first 2-in-1 WC pan connector that combines two functions in a single, ultra-easy-to-install solution: efficient drainage combined with integrated **AIR SYSTEM** function, which eliminates rising odours and pipe noise!

The result: no odours, no noise, and a more durable, reliable, and comfortable bathroom experience!

WC CONNECTOR

## **BENEFITS**

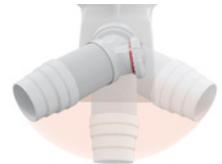

### **COMFORT “AIR SYSTEM”**

- **VENTILATION:** creates or improves secondary ventilation in the pipes
- **COMFORT:** prevents back-siphoning, eliminating odours and pipe noise in the bathroom.
- **2 IN 1:** two functions in a single solution: efficient drainage with the **integrated WIRQUIN AIR SYSTEM** for ventilation.
- **EASY MAINTENANCE:** integrated inspection hatch for clearing blockages.

### **QUICK AND EASY INSTALLATION**

- **UNIQUE UNIVERSAL SOLUTION:** flexible, extendable, and equipped with a multi-diameter outlet, **AIRCONNECT** replaces a wide range of toilet fittings and easily adapts to all configurations.
- **QUICK INSTALLATION:** time saving thanks to the 2-in-1 product, without the need to drill, the easiest way to install a ventilation.
- **SMART INSTALLATION:** works even when rotated (156°), unlike conventional air admittance valves that require strict vertical placement.

### **DURABLE**

- **REINFORCED LEAK-PROOFING:** , double-lipped seal.
- **ROBUST:** reinforced metal sheath, 10-year warranty. LONGTIME® certified, designed to last, certifies the product’s durability.
- **ECO-DESIGNED:** made from over 50% recycled material.

Innovation

### AIR SYSTEM FUNCTION: Integrated Anti-Vacuum Technology

> When you flush: a large volume of water rushes into the drain pipe. This flow creates negative pressure (a vacuum), which can cause back-siphoning of water seals leading to, noise, and unpleasant odours - especially when a shower is installed close to the toilet.

> With the integrated AIR SYSTEM, the pressure-sensitive membrane automatically opens in case of negative pressure, allowing air to enter the network to equalize the pressure. This ensures smooth, quiet drainage with no odour backflow.

### AIR SYSTEM

## RELIABLE

### The LONGTIME® Label: a Mark of DURABILITY & REPAIRABILITY

**DURABILITY:** From design to the use of recycled materials, Wirquin develops robust products that ensure long-lasting performance.

**REPAIRABILITY:** The availability of essential spare parts and a 10-year manufacturer's warranty demonstrate Wirquin's strong commitment to the product's longevity.

## CHARACTERISTICS

Outlet Diameter: 93-100-110 mm

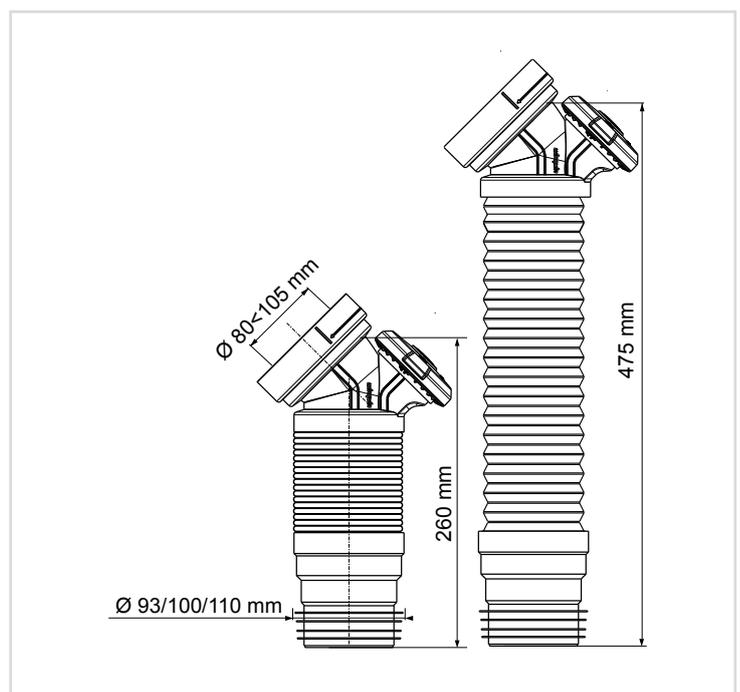

Inlet Diameter: 80-105 mm

Connection Type: push-fit or solvent weld (when fins are removed)

Length: 260 - 475 mm

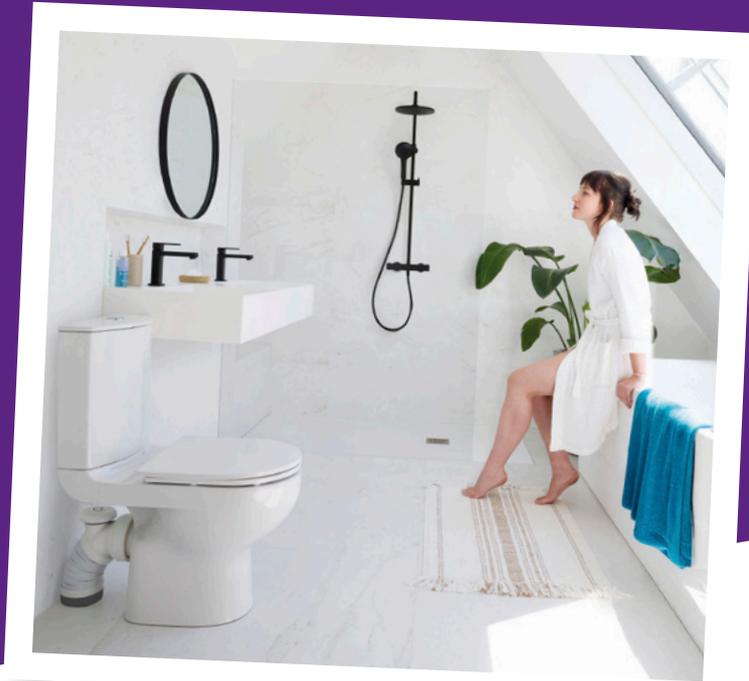

Main Material: recycled ABS

Membrane: silicone
